Wisma Nusa Permai D8, Nusa Dua, South Kuta, Badung, Bali, 10, 80361, Bali, Indonesia

About me:

My Ignaz Maula Ibrahim. I'm a student of bachelor degree in information and technology. I love things related to computer especially in coding and software development. My biggest strength in software development is front-end programming especially with Javascript frameworks such as React and Vue. I'm also capable of doing back-end development using Laravel and Node.js and beginner-level mobile app development. As a software developer, I believe that no challenge is too hard to be solved. Every challenge that I faced only motivated me to learn more and become better and better.
